Record Throngs Attend Dance, Xmas Parties

The New Year 1958 was officially tooted in by whistles and fireworks at midnight, Tuesday, December 31—but record numbers of Y-12ers and their youngsters still were remembering the big times they had at the annual Y-12 Dance Party on December 20 and the Union Carbide Nuclear Company Children's Parties on December 23.

To the tuneful melodies of Larry Dunn and his band, nearly 400 Y-12ers, guests and friends danced an hour overtime, until 2 a.m. instead of 1 a.m., at the Dance-Party Friday night, December 20, at the Oak Terrace. It was one of the most enjoyable of the many successful shindigs of this kind ever staged by the Recreation Department.

Winner of the top door prize—a 19-pound turkey—was Ralph Hane, Instrument Engineering. R. H. Brown, of the Southern Bell Telephone Co., Oak Ridge, drew the second prize of a ham. Fruit cakes were presented Ray Guinn, Alpha Five; and George Fulmer, Quality Control.

If the Oak Ridge High School and the gymnasium at the Gamble Valley School had visible rafters—they would have been well shaken by the squeals of delight of the throngs of youngsters attending the Children's Parties on Monday, December 23.

There were 7,400 tickets issued for these affairs and every one of the four sessions at the big high school auditorium drew capacity throngs. The kiddies were treated to comedy cartoon films, a visit by Santa Claus and other features.

Harry Carper, K-25; kept the high school audiences amused during program lulls by leading the youngsters in "Jingle Bells" and other group activities. Other UCNC employees from Y-12, K-25 and Oak Ridge National Laboratory, assisted in handling the parties and handing out gifts of stockings to each of the young guests.

Session Slated For January 15 At Ridge Hall

Nominating Committee Proposing New Faces For Board, Group Posts

Several new faces will appear among the elected officials of the Y-12 Employees Credit Union for this year if the slate of candidates to be offered by the nominating committee at the January 15 meeting of the organization is adopted, according to W. O. Elam, Head of the Y-12 Fire and Guard Departments and chairman of the committee. The meeting is slated for 7:30 p.m. at the Ridge Recreation Hall and a large attendance of Credit Union members is urged at this only open meeting of the organization during the year.

Four members of the board, four on the credit committee and one on the supervisory committee are to be elected, all for terms of two years. Officers of the Credit Union for the year are elected by the board from its own membership.

In addition to the election of officers, the Credit Union membership will vote on the annual dividend to be declared for 1957, which makes the meeting even more important to the membership, it is pointed out by J. P. Blakely, President of the organization and an Oak Ridge National Laboratory employee in the Y-12 Plant Area. For the past five years the dividend rate has been 4.2 per cent on outstanding shares, with the dividend automatically being applied to each member's share account unless otherwise specified by the member.

On the board of directors terms of Mrs. Lorene Causey, Treasurer; C. V. Ketron, ORNL; Gordon Fielden, Maintenance Planning; and Dave Smith, Alpha Four Cascade Operations; will expire. Hold-over members are President Blakely, W. R. McGill, Fire Department; and A. J. Fisher, Security.

The nominating committee has renominated Mrs. Causey and Ketron and added the names of Wells Stanley, Project Engineering; and Herbert Gwinn, Special Testing; as candidates.

The spark caused a small burn on the top of the Y-12er's right foot and he did not report the injury to the Medical Department. Two days later the burn became infected and on December 19 it became worse and he was admitted to Oak Ridge Hospital for treatment. He was expected to be confined only a few days.

Overseas Investments Aid Corporations, Individuals

American corporations and individuals invested a record \$3.9 billion overseas in 1957 for a total of \$33 billion. With friendly foreign nations benefiting from United States technology and savings, more jobs are made for Americans as a result of bigger markets for American products. As a result, Communism is discouraged in these nations and the need for foreign aid by the United States government is ultimately reduced, with savings to the American taxpayers.

Cobalts Are Beaten; ORNL Gets Close Win

The improving Y-Ettes women's volleyball team got an even break in their last outings before the holiday season, taking two out of three games from the Cobalts and dropping a like number to the loop leading Oak Ridge National Laboratory lassies. Against the Cobalts the Y-Ettes whacked out a 15-6, 12-15, 15-7 victory by showing their best form of the season. Just as impressive was their exhibition against the league leaders as the Y-12 girls forced the ORNL outfit to the limit before bowing 10-15, 15-13, 11-15.

The ORNL women added to their loop lead by taking three from the K-25 Spikers, 15-12, 15-7, 16-14.

Given Jacket, Electric Razor

The presentation was made last Thursday, December 26, at the Knudsen home with Foreman Clyde McLemore and a fellow Experimental Machinist, B. H. Hobby, doing the honors.

On the eve of his retirement, "Tryg" and his wife were full of stories of their daughter, her son and his wife, and the Knudsen's great-grandchild, with whom the former Y-12er spent Christmas. The youngster, Cindy Lea Jones, is the daughter of Phillip Jones, a Marine Corps sergeant and son of Mrs. R. T. Gammon, of Knoxville, the Knudsen's daughter.

Naturalized In 1917
